

the law of
April 6, 1830
article

illustration

my translation

Your job will be to translate the Law of April 6, 1830 into everyday language. Take the handouts the teacher gives you and translate the law onto the chart. When you finish with each one, take it to your teacher to check, and repeat the process until you are all finished. When you are finished, draw and color a picture to represent each new law.
